Courtenay Fraser

Since having Lukas’ diet structured with LifeLine feeds I have noticed a marked difference in his energy level, strength, and

condition. He has absolutely bloomed over the past year and I owe much of this to the great feed regimen he currently follows. I truly believe that quality feed is an essential part of attaining your horse’s top ability and performance that is why I choose LifeLine Feeds. Pacific Regional Championships - FEI Advanced Small Tour Reserve Champion – Open.

I am proud to represent Otter Co-op products and stand behind the results and success I’ve had on these products! I have put my performance and young horses on the Lifeline Premium Feeds and Pegasus Supplements and have noticed an increase in calm demeanour, agility, long lasting energy, weight, muscle and overall well-being. I appreciate the low sugar content in the products and truly believe I am giving my horses a good source of both protein and energy in which they can perform at their optimal level.
